About us

Over the last 35 years, children all over the world have grown up, developed and had fun using equipment manufactured by SPI Play. Our systems provide a wonderful and colourful world for children to enjoy and it is our mission to provide the very best experience not only for children, but also for the owners of our play centres.

These customers trust us to deliver and install on time. Our value is not only reflected in price but is linked to several factors: quality, safety, your expectations, your customer's expectations and our unwavering dedication to customer care.

Designing For Play

The play systems we create are designed in close consultation with you the customer. You decide the overall feel and theme, you decide which bright, child friendly colours are used for each section of your structure and most importantly you decide which events will be used. After all it's your business and we have the experience to help you meet your business objectives.

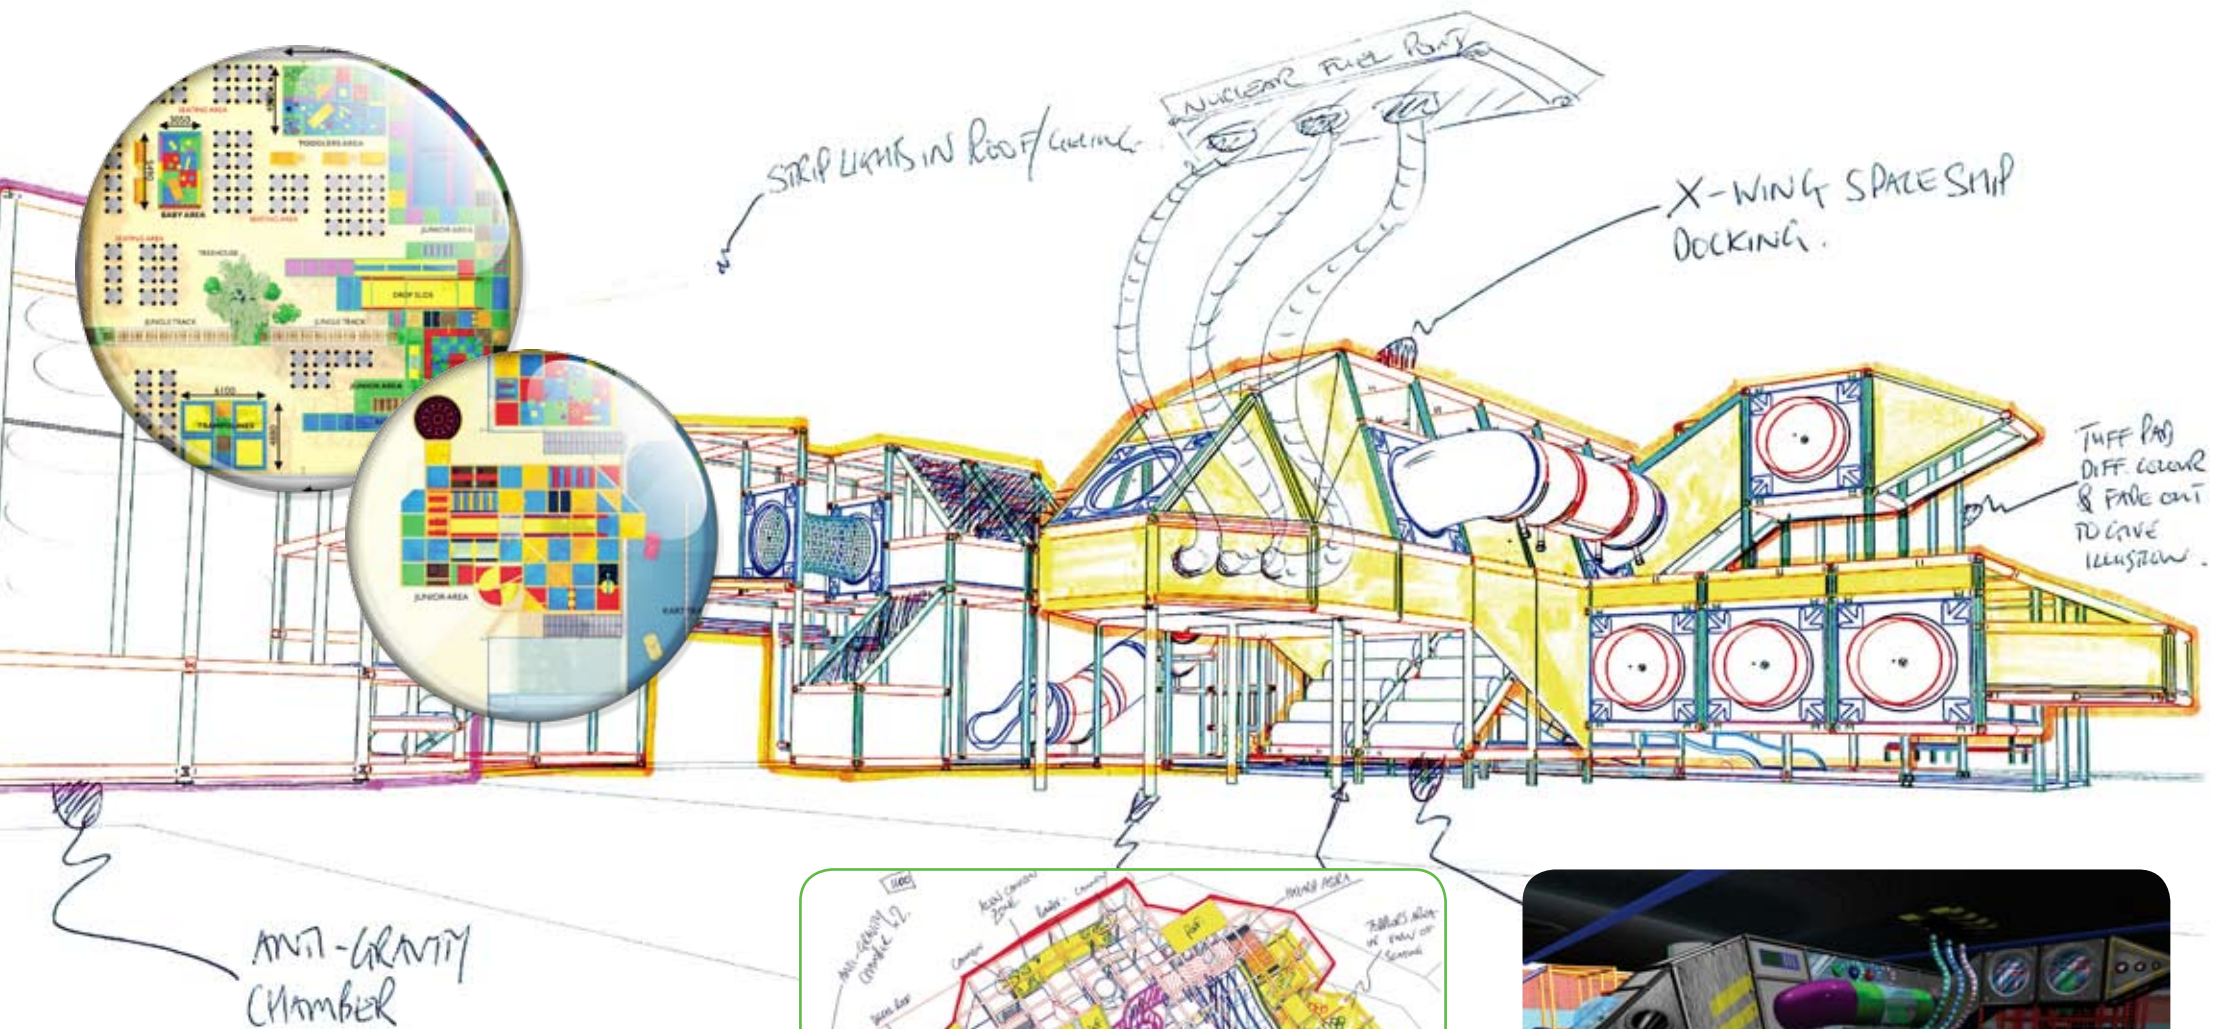

Designing For Play

Play is our business and we are experts at ensuring that our customers have the very best engineered solution and providing play systems that put fun, innovation and safety first. Our team of engineers, designers and consultants have many years of experience to ensure that our customers have a concept that is a perfect fit for their business.

Planning & Layout

Planning & Layout

SPI Play provides customised designs and layouts for all of our play concepts. From the smallest toddler and baby area to the biggest Family Entertainment Centre. We make sure all of our designs work with the space provided to maximise play value and to meet your business requirements.

Theming Solutions

Theming Solutions

Our creative team are masters at developing your ideas and turning them into designs which are going to grab children's imagination and hold it. We will turn your ideas into a play area which is unique and that will attract your customers to return again and again.

Alongside our efforts to innovate we are always striving to develop the use of new methods and new materials which will help our customers be leaders and reduce their maintenance costs.

Artwork Development

Artwork Development

Our in-house design team specialise in helping to make your business stand out from the crowd. Logo design, character creation and theming are just a sample of the capabilities of our professional illustrators and graphic designers.

We have an extensive library of scenes and characters for you to choose from as well as a large selection of themes; including aquatic, spooky, jungle, pirates, medieval, space and fairytale. If you can't find what you're looking for we will be more than happy to create it for you.

Safety, Quality & Support

All of our play structures are designed and manufactured in our 42,000 square foot facility in the UK. Our components including PVC, foam, netting, webbing, plastics, steel and fittings are purposely selected for their quality and durability. Conforming to European wide safety standards and complying with the advice and guidelines of RoSPA and APAVE.

Safety, Quality & Support

Safety, quality and support go hand in hand when it comes to your business and these should be the starting point when choosing a supplier. That's why all of our play area components are chosen with you in mind so we can provide a safe and durable product which will stand the test of time.
